

CallParents

Dear Parent/Guardian

RE: E-Mail and Text Messaging System

We are delighted to inform you that we are now able to send messages, information and alerts home to parents via e-mail and text message thanks to a system called Callparents.

CallParents is a **secure** web based system designed specifically for schools and youth organisations to enable messages to be sent directly into parents' e-mail and mobile inboxes. Our school has subscribed to use the system with the aim of helping us to get news and information to you in a more reliable and efficient manner.

The more parents that decide to sign up for CallParents the greater the benefit is to the school. We ask that you kindly fill in the mobile telephone number and email address of your child's first contact person on their admission form. Please sign the permission box so we can register you. We will complete your registration in September when your child starts our school.

IMPORTANT: Please be assured that CallParents treat the security of your data with the utmost importance and are registered with the data protection registrar and to this end **guarantee** the security of your details. The system is also free of any advertising and parents who sign up will not receive any e-mails or texts from advertisers or any other third parties.
