

Our topic this term is called **Food Glorious Food!**

The tasks can be completed in any order beginning wherever you like. More than one task can be completed in any week. Please complete **at least 6 tasks by Friday 12th July**. You can of course complete more than 6. Alongside this homework I will send home spellings and times tables to learn for a weekly quiz each Friday.

Reading is a homework for every day. Please complete reading homework in as many ways as possible. See the 20 ways to have fun reading on the World Book Day site.

Have fun!

Mrs Sadler

Useful websites:

World Book Day - Even though we have already celebrated World Book Day there are still lots and lots of fun things to do and read on this site. Podcasts, videos, activities and writing opportunities.

Dojo reading - sign up and keep a check on your dojo points from home. How many more points until you get the next certificate?

Times Table Rockstars - Ask me for your log in if you have lost it.

Oxford Owls ebooks - Sign up for free. There are many free ebooks on this site.

<http://www.wordsforlife.org.uk/7-11> Lots of reading fun!

<https://www.oxfordowl.co.uk/for-home/maths/maths-skills-ages-7-9/> Lots of maths fun!

Year 3 Homework Second half of Summer Term 2019

<p>1 Look on the World Book Day website. Choose an activity. Listen to a podcast, read a book review or complete a book quiz.</p>	<p>2 Look on the World Book Day website and enjoy watching a video about an author or illustrator. Would you like to read one of their books? Do we have it at school or does Walton library have it?</p>	<p>3 Visit Frinton or Walton library and just spend time enjoying the books. You could try and find a new author? Are there any information books about healthy food? Can you find poems about food? Can you find a book about the country where your favourite fruit grows?</p>
<p>4 This homework is for after Sports day. Did you have fun at Sports Day? Did you try your best? Did your team win? Pretend that you are a sports reporter for ITV Sports. Can you report on the day? Which races were there? Was the weather good for a sports day? Which team won? Did the parents and children cheer for their teams? You can write this as a report Or you could film yourself as if you are reporting live from the school field.</p>	<p>5 In class we are going to try and find out if water travels through the stem and up in to the petals of a flowering plant. You can try out some ideas at home first if you would like to. Or you can wait until we have done this at school and then show your family what you learnt. You can write what about what you told them or draw a labelled diagram. Or you can video or photograph your experiment.</p>	<p>6 Explain to your family how to play scatterball, benchball or matball. If there are lots of you, could you show them by having a game together? Take a photo / video / draw a picture of what happened. Or you can write instructions for how to play. You can write instructions or make a video about your own game if you prefer.</p>
<p>7 This homework is for after Art week. Explain to your family what you did this week and what you enjoyed the most. Then write to Miss Stock to tell her too. I will send her your homework to read. (Miss Stock is in charge of Art in our school and we have had a lovely art week because of her.)</p>	<p>8 Use the computer or visit the library to gather information about the human skeleton. Your homework can be simply reading the information. Or drawing and labelling what you found out. Or making a skeleton model showing the main bones that support and protect the body and its organs.</p>	<p>9 Choose a plant to copy and draw. It could be in your home, on your walk to school, in a garden or an image on the internet. You can colour it if you would like to. Can you name the plant? How many parts of the plant can you label?</p>
<p>10 Create your own menu for a summer picnic. Make sure there are some healthy treats included. Write it, draw it or make it.</p>	<p>11 How many foods can you list that come from plants? eg chips are made from potatoes. Potatoes grow from the underground stem of the potato plant. You can write an alphabetical list or draw diagrams to show the food and its plant.</p>	<p>12 Create a quiz about healthy food.</p>
