

English/Science

Create a poster about space. Include: information, diagrams.

Challenge: Could you make this a persuasive poster?

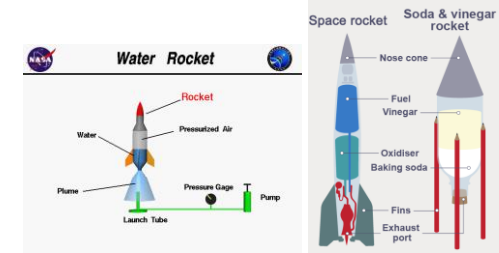

All

Create a space theme board game. This could link to Science, Maths, English or even French! Write a set of instructions on how to play the game.

Science

Write up a space themed science experiment. Take photos. e.g. a water rocket- See how far your rocket can travel. a soda & vinegar (chemical reaction) rocket. Remember: Aim, prediction, method, results, conclusion.

English/Science

Write an information text all about the solar system. You could create a booklet.

English

Write a descriptive paragraph for the following image. I will be looking for: ISPACED openers, similes, metaphors and personification.

Maths

Write space themed mathematical worded problems and solve them.

They must include: multiplication (4x2 digit numbers), division (4÷1 digit numbers), addition (up to 6 digit numbers) and subtraction (up to 6 digit numbers). You could even try using fractions (mixed number or improper fractions) or percentages.

D.T.

Make a model of the solar system. You could use papier mache and balloons to create the circular shapes. Include labels.

English

Write a diary entry about an astronaut going to space. Were there any problems faced on the mission?

D.T.

At home, make or build a rocket. You would use "junk" items around the house and then papier mache it!
