

YEAR 6 HOMEWORK. SUMMER TERM 2020

<p>English</p> <p>Write your own play about anything you want that would entertain you. It should have multiple characters and be set out like a play script.</p> <p>Speaker 1: hello, how are you?</p> <p>Speaker 2: I'm fine thank you (said cheerfully)</p> <p>Remember to include stage direction to explain what the characters should be doing when they are talking. You could act this out with your family.</p>	<p>Music</p> <p>Brazil is famous for percussion based songs, especially for their carnival music.</p> <p>Using what equipment you have around the house, produce your own percussion song, like the cup song from Pitch Perfect.</p> <p>This can be recorded with symbols if you like to.</p> <p>Can you help your family to learn the song too so you can play it together?</p>	<p>Maths</p> <p>Draw lines from one side of a piece of paper to another at different angles so that they cross over.</p> <p>When finished colour the shapes that are created in different colours. For example- pink for a pentagon (5 sided shape), blue for a hexagon (6 sided shape)...</p> <p>When completed, have a look at the angles that have been created. Are there any right angles (90 degree), how many acute angles (less than 90 degrees) and obtuse angles (more than 90 degrees) are there?</p> 	<p>Maths</p> <p>Using the coordinates grid below, play a game of battleships with a partner.</p> <p>Remember it is along the corridor, up the stairs for the order of the coordinates. Decide how many ships you place on the grid and your partner has to guess a coordinate to try and sink your ships.</p>
<p>Geography</p> <p>We are considering the differences between England and Brazil.</p> <p>Research physical features of Brazil such as the Amazon rainforest, Amazon river and the Pantanal.</p> <p>What is the weather like in these places, what is the landscape like (flat, hilly...)</p> <p>Are there particular animals you would find in these place?</p>	<p>English</p> <p>Write an autobiography that could be given to someone who doesn't know you, so they can have an idea of what is important to you..</p> <p>Include important information about your family, friends, likes, dislikes, hobbies, personality and anything else you think people would like to know about you.</p>	<p>PSHE</p> <p>We are continuing with our mindfulness activities. Now it is the summer term and the weather is improving, take some time outside and make a note of all the sounds you can hear when you go for your daily exercise.</p> <p>You could try this at different times of the day over a period of time and see if this makes a difference to the sounds you can hear.</p>	<p>PSHE</p> <p>As you have now heard what secondary school you will be attending, take some time with your adults to write down any questions or queries you have about moving on to secondary school. I will then try my best to answer the questions that come in myself or try to find out the answer for you.</p>
<p>Science</p> <p>Circulatory system.</p> <p>We are looking at heart rate this term in our science learning.</p> <p>Conduct an investigation by measuring your heart rate when you are rested. Then after doing different types of activities for a minute, for example walking on the spot, running on the spot, star jumps.</p> <p>Record your heart rate after each activity and write about what you notice.</p> <p>How long does it take your heart rate to get back to its original pace after exercise?</p> <p>You could record your results on a line graph.</p>	<p>Art</p> <p>Using items from nature, collected during your daily exercise or in your garden, create a collage of different textures</p> <p>This can be of a specific picture or a pattern.</p>	<p>DT</p> <p>With an adult, practise your cooking skills.</p> <p>Can you help cut up the vegetables, grate cheese, mix together ingredients, follow a recipe from scratch...</p> <p>All with the support of an adult to help you stay safe.</p>	<p>PE</p> <p>Have a look at BBC Super Movers and have a go at their keep active videos. They can be used to help learn your timestables, practise English skills or to just get moving. Write down the ones you tried.</p> <p>Keep active with Joe Wicks using his daily workouts.</p>

YEAR 6 HOMEWORK. SUMMER TERM 2020

--	--	--	--

As always, spelling practice, times tables and regular reading at home are an expectation.

Parents are encouraged to help with homework but please make sure it is your child that completes the homework.

If any help is needed with homework, please ask.

Miss Murphy, Mrs Golding and Mrs Smith.
