

Year 3 Homework Autumn 1

<u>English</u> Have a go at writing a short story about time travelling to the stone age. This can be as strange as you want! You can be the person travelling there or you can make up your own character.	<u>Maths</u> This term we are going to be using lots of different strategies to add and subtract. Have a go at practising addition and subtraction mentally up to 3 digits (100's). Try adding/ subtracting ones, tens or hundreds. Make a record of the ones you have practised.	<u>History</u> Find out 5 "fun facts" about the stone age times! It can be what items did they first start to use? How did they live?
<u>French</u> Draw a picture of your family and label them using French vocabulary	<u>Science</u> Use the internet or visit the library to gather information about the human skeleton. Draw and label what you have found out.	<u>Art/Science</u> Use any natural materials to make a skeleton. Take a picture so we can display these in class.
<u>ICT</u> Have a practise on 2code gibbon. You can find this under the computing section of purple mash. We will be using this to practise our coding skills in the first half term.	<u>English/DT</u> How many healthy foods can you find in your home? Record them any way that you would like. You could write them like a shopping list or draw them in a healthy poster. Can you write them in alphabetical order?	<u>Random</u> As our topic is Stone Age, research and make something from this time in history.
