

Geography

We will use our food topic to find out about places in the UK and around the world that produce the food that we eat.

We will also be investigating where Egypt is and the difference between the human and physical features.

Maths

Our units this term will give the children an opportunity to develop their understanding of place value, number patterns, estimating, shape, angles, and money.

Science

We will be learning all about plants and their needs including the function of each part, pollination and seed dispersal. Then we will find out about how animals get nutrition from what they eat. We will also find out about skeletons and muscles.

English

Narrative 1 - Conflict and resolution story

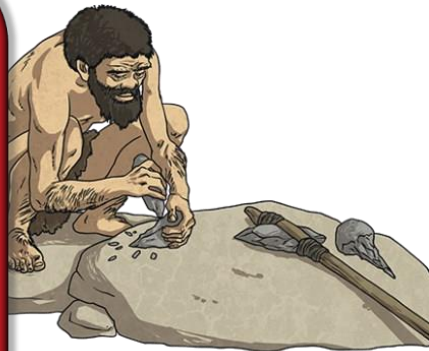

The day the crayons quit

Explanation

Stimulus - George and the dragon

Model text - Why dragons are afraid of mice

poetry - Free Verse – Wish (A SPELL)

Art

We will look at the work of Andy Goldsworthy and design some natural art sculptures of our own. We will also learn about Pop Art and create our own prints.

Design and Technology

We will be designing and making a variety of healthy foods using different methods.
